Symbols can be combined to define other units, for example:

= balloon + artillery
= artillery observation balloon

= transport + amphibious
= water-borne or amphibious transport, for example a unit equipped with sea trucks, or amphibians such as the seal, DUKW, etc.

= transport + bridge + motorized
= motorized bridge transport, not an engineer unit, could be RASC, for example.

Symbols can have text added, usually abbreviated, giving information not possible within the symbol, for example:

= 741st Tank Battalion equipped with 17 Sherman Duplex Drive tanks

= headquarters + regiment + engineer + Gru Kodels Nord + railroad
= Commander of Railroad Engineer Troops, Army Group North (a regiment echelon headquarters)

= regiment + labor + navy + 1 + Construction Unit
= regiment sized Naval Construction Unit No. 1

Army, Navy, Marine, Air Force units, and nationalities are usually shown in different colors, for example:

= battalion + commando + naval infantry + 45 + RM
= 45th Royal Marine Commando

= flight + observation + A/852 + AOP + RAF
= 'A' Flight of No. 852 Squadron, Air Observation Post, Royal Air Force, equipped with Taylorcraft Auster light observation aircraft

= squadron + observation + VMO + 151
= Marine Observation Squadron 151
