

## Mission #3: Rebel Revenge

Rebel Akula Attack (Russia)

SITUATION: Chernyy believes the attack on the SSBN was the result of US Actions. Another rebel Akula is believed to be on an anti-SSBN patrol in the Western Pacific searching for a Trident on patrol. Expect retaliatory actions.

MISSION: Proceed to the vicinity of 30N, 150 Em approx. 500nm southeast of Japan, for rendezvous with an ASW theater of operations in support of a Trident on patrol. You must remain undetected by all forces due to the sensitivity of the information that an SSN may be hunting a Trident. The Trident has been informed of the threat and may be jumpy.

The Japanese Self Defense Force will be on patrol near the ASW theater of operations. Although Japan is a US ally, you must avoid detection and, especially, classification, since either will compromise your mission.
