

From the 688i Strategy Guide:

A continuation of the *Jane's Defense Weekly* news report:

Libya is again harassing its neighbors. Because it opposes the Middle East Peace Accords, Libya is putting pressure on Egypt and agitating the fundamentalist Egyptian factions. Libya has called US Presence in the region "Unwarranted interference in affairs that are not their concern" and promised to take action against US Ships in the Gulf of Sidra and the Eastern Mediterranean. Libya recently acquired three Russian made Kilo Class Submarines.

In other news, United Nations inaction and the failure of the North Atlantic Treaty Organization allies to reach an agreement on military operations in the former republic of Yugoslavia have resulted in the continued ethnic cleansing in Bosnia-Herzegovina. US Naval forces continue to operate in the Adriatic as a show of force and to be ready for contingencies.
