

Mission #2: Duck in a Shooting Gallery

SEAL Operation Against Oil Rig

SITUATION: US Intelligence sources suspect an Iranian Oil platform located at 26-53N, 51-30E is being used as a launch platform for helicopter gunships that have been harassing neutral shipping in the Persian Gulf. It is also presumably the source of targeting information for Iranian fixed wing aircraft.

MISSION: Your submarine has successfully penetrated the Persian Gulf. Your mission is to close the Iranian oil platform and visually verify helicopter operations. Once you have achieved those objectives, you are to remain undetected and launch a SEAL team that will destroy the platform. Then recover the SEAL team, clear the area by 100 NM and report.
