

CRS: what is new on the map on turn 1, by side

Conkristador's Realism Scenario: new units, air groups and ships on turn 1

Release 1.2 (Draft 44). Everything CRS adds to stock Scenario 1 that is already on the map on 7 December 1941, by side, with its location and parent command, so a player planning the first turn can find it. Units that arrive later are in CRS_New_Units_Japan.pdf and CRS_New_Units_Allies.pdf; stock units that CRS re-rates, re-equips or moves without renaming are in the change ledger. The last table on each side lists the stock units and ships present on turn 1 that CRS renames, old name first, for players who know the stock names. Soviet units are on the map but inactive until the Soviet Union enters the war.

Allies: 106 ground units, 8 air groups, 87 ships new on turn 1**Ground units (106)**

Unit	Nation	Formation	Location	Attached to	What it is	Notes
5th Aus Garrison	Australia	Battalion	Adelaide	Australia Command	security or garrison
